Railroads May Appeal to Wilson

TO USE HIS PERSONAL EFFORTS TO AVERT STRIKE

IF CONCILIATORS FAIL AT STRAINING POINT

The Appeal to the President to be Made Only as a Last Resort to Save Nation From Trade Paralysis.

New York, Aug. 9.—If the United States board of mediation and conciliation which was called in today fails to adjust the differences between the railroads of the country and the 400,000 employees, President Wilson will be asked to use his personal influence to avert a general strike. This statement was made today by a representative of the railroad managers.

Conference Secret.
Late tonight efforts of the federal mediators to bring the warring factions together were well under way. Six hours of the railroad managers had served notice on the men that they would not withdraw their formal rejection of the workers' demands and had proposed federal mediation.

Excitement in Wheat Market

OVER CROP LOSSES IN UNITED STATES AND CANADA

Trading Closed in a Whirl Showing Net Gains of 10 1/2 to 11 1/2—Black Rust is Spreading in Canada.

Chicago, Aug. 9.—Giant crop losses in the United States and Canada sent the wheat market today nearly to the straining point. Trading closed in a whirl of excitement showing net gains of 10 1/2 to 11 1/2 with the September option at \$1.44 1/2 and with December at \$1.48 to \$1.48 3/4.

Canada's Shortage 136,000,000 Bushels.
Black rust spreading in Canada and indicating that the crop there would be cut down 136,000,000 bushels from the total made the situation more acute, as the United States and Canada have been furnishing six-sevenths of the world's bread wheat supplies to the countries that in the face of war difficulties have still been able to import.

Jumped Eight Cents Over Night.
The biggest jump in prices today came right at the outset, exactly eight cents a bushel over night. Stronous efforts to buy cleared the market at 11 1/2 cents, and the price of wheat advanced to 12 1/2 cents under the topmost level on record in the violent fluctuations of the first year of the war.

Heavy Foreign Buying.
Foreign buying on a huge scale apparently had much to do with the extreme prices in the hours of today's trading. It was estimated that the business today totaled 1,500,000 bushels for immediate shipment including purchases of wheat with options on future deliveries.

HUGHES REPLIES TO SEC'Y REDFIELD

About E. Dana Durand Being Forced Out of Office as Director of the Census

MAKES PUBLIC LETTER FROM DEPOSED MAN

Durand Writes That His Resignation Was a Distinctly

Forced Resignation—Republican Nominee Repeated His

Detroit Statement That an Eminent Scientist in the Coast

and Geodetic Survey Had Been Displaced by "an Excellent Stock Breeder and Veterinary Surgeon"—Closed

His Speech in Minneapolis by Saying We Must Have

Higher Standards Than Those of This Administration.

Minneapolis, Minn., Aug. 9.—Charles E. Hughes, replying to Secretary Redfield's telegram denying that E. Dana Durand was forced out of office as director of the census, said that he had written a large audience here a letter from Mr. Durand in which Mr. Durand said that he had told Redfield he would resign but wanted to remain, and that Redfield had decided on a change.

Mr. Durand's letter, read by the nominee in the course of an open air speech in the parade grounds here, was in part as follows:

Mr. Durand's Letter.
"Inasmuch as the truth of your statement with regard to the change in this directorship of the census has been challenged, I think it is only fair to you that I should make this statement. My resignation as director was voluntarily my forced resignation. At the first conversation I had with Secretary Redfield, I told him that I would resign, but that I hoped I would be permitted to remain. He at once told me that the administration had decided that it wanted to make a change. I believe that the change was made for the best of the country."

Mr. Hughes then repeated his Detroit declaration with reference to the displacement of an "eminent scientist" in the coast and geodetic survey by "an excellent stock breeder and veterinary surgeon."

"Exception also has been taken by the distinguished secretary with regard to the man," Mr. Hughes continued. "Now I am not in a position to state of my own knowledge of the circumstances with reference to the displacement of an 'eminent scientist' who occupied that important place. But if I may assume that he retired voluntarily, I believe that the change was made for the best of the country."
